THE GRAND RESULT.

Ohio and Iswa, have spoken, and have condemned Greenbackism, Democracy, repudiation, and a dishonest money. The result is exceedingly gratifying. The Republicans carry Ohio, by from 10,000 to 15,000 majority, and elect eleven out twenty Congressmen, not withstanding the infamy of the Democratic gerrymandering to give the Republicans only seven districts. Indiana elects a Republican Legislature, and secures six out of thirteen Congressmen. lows, the grand old Republican State, swells her majority to 30,000, and elects a clean Republican delegation to Congress. In that State there is a gain of 20,000 majority over last year. The report comes from West Virginia that a Republican has been elected to Congress. The Republican ticket received large gains everywhere. In some counties in Ohio, there was an increase of from 1,000 to 1,500. Let the Republicans of Wisconsin rejoice with exceeding joy

SENATOR HOWE IN JANESVILLE.

Senator Timothy O. Howe will address the citizens of Janesville at Lappin's hall on Friday evening of this week, the 11th instant. The Senator's speech on the political issues will be one of power and interest. As a close reasoner, a logical thinker, and an impressive speaker, he has not a superior in the Senate. Those who desire to hear the financial questions of the day discussed in such a manner that all who hear may understand, should not fail to hear Senator Howe. He is one of the most prominent United States Senators today, and deserves a hearty welcome to An Excursion Train, Returning

They will tell you, too, that it is not more money that is needed, but more business to employ the money already

For I suppose, Mr. Chairman, that the question is not whether the people of the United States shall go forward to the resumption of specie pay-ment, but whether, having actually reached specie payment, they will, by positive leg-islation, go backward and adopt irreedeemable paper currency. Because 1 submit in the presence of men here who are far more competent than I to speak of it, I submit to those who have resided longest in the West, and are most familiar with policies and politics, with finance and measures in the West, that there never was nor has the temporary loan. We have made the sacrifices; we have gone never been made, that it would be a wise clear through with them and we have gone until we are now on Pisgah's top looking | United States, to go to work and issue a lot right down into the promised land. Both engines ened trouble with England, growing out of the cases of Slidell and Mason, the banks of

and the Government of the United States followed suit per force. And in one of the last days of December, '61, \$3,000,000 ot United States demand notes went to protest in the city of New York, at the Assistant Treasurer's office. The United States being compelled to do just what you or I have to do if we owe a note and cannot pay it-we go to protest, and the United States did the same. The Congress of the United States, after the holidays in that year, in January, '62, met again with an empty Treasury; it met with a discredited national currency, and it was then compelled to take that step, unprecedented therefore in the history of the United States, a step which had never been taken before in any other country, except with disaster, but a step rendered imperiously necessary by the gravity and the embarrassment of the situation; I mean the step which authorized the Secretary of the Treasury to issue \$150,000,000 of currency -paper currency—and pronounce it legal tender for all transactions between man reported four cases of yellow fever at and man, an extraordinary step, I say, and yet, Mr. Chairman, I have never had any patience at all with those gentlemen who have been wise after the facts, and who have assured us that they saw the misstep and mistake on the part of the government. It was neither. It was the dictate of abscluto necessity which knows no law. The gentleman may be very wise to discuss calmly now the ethics of the measure we it was no time to find quibbles and constitutional points. WEDNESDAY, OCTOBER 9, 1878.

BLAINE OF MAINE.

[CONTINUED FROM FIRST PAGE.] Congress I would leave the financial legislation to THE COUNTY COMMISSIONERS OF COOK COUNTY,

Idinois. [Applause and laughter.] Conproperly made up so. The existence of any Republican nation consists in having one great political party, sharply, jealously, and suspiciously watched by another great political party. Now the representatives of these two parties brought out of the fight-no matter whether Republicans or Deme rats-now are they to determine by your light how much you need to do business? [Laughter] Why, of course you laugh; a horse would laugh. Why, the people of this country do not want Democratic money, or Republican money: they don't want Congress to be forever leg- lies and novelties, but to push boldly forislating on this subject.

Senator Thurman, of Ohio, a very able gentleman, and standing deservedly high in the coursels of his party. leading and able Demo-

crat, made a speech on this question the other day in Ohio, and he took the ground that the government should issue all the paper. I read his speech all through. 1 thought it any man was able to tell me, or tell you, how that could be regulated, that Senator Thurman was the man, and I read him with great interest for that particular point, and I found when he came to that portion of the subject, he did like the little boy in spelling school when he reached a hard word—"skipped." He didn't answer it, because he could not answer it. He did not answer it, because it could not be answered, and I say to you here that the theory of mances advocated by the Greenback party means a political currency for this country. It means

A CURRENCY TO BE VOTED UP OR voted down accordingly as one party or the other is in power at Washington, and that is exactly the kind of currency which this country can not stand. We do not want political money here. But that is the only dodge they have got. Well, then they turn around and say to you, well, how are you going to furnish any money to the country? Well, my apswer to that is, that we have about \$700-000,000 paper money to-day, and as any number of gentlemen-five or more-in this country that think they need more currency, can form a national bank anywhere they choose, it is as free as water flowing down stream. There need be no particular scarcity of currency. But just as soon as you mention a national bank you put the Greenbacker right "up on his ear," because to him the National bank is the red flag which the Greenback bull

rushes for. [Laughter.] The Republican party never has and never will make a national system a test of party fidelity. No man was ever called upon to put his hand on a book to swear that he believed in a national system betore, and by the Republican party never will be. It is not a test of faith. It is not included in the thirty-nine articles of our creed, but all we say about it is this, that the Republican party is responsible for the national banking system and they are not ashamed of it, and when I talk about the ashamed of it, and when I talk about the all who may need an invigorating, renovating national banks to you it would be well to Formerly Pastor of Bowdoin-square Church, Bosio. k and see what these national banks took the place of, and you had better look to-day and see, if you abolish national banks, what will take the place of them, cause no man is so ignorant of these banks in this intelligent assembly to supose that this country, with its rapidly de veloping business, is competent to do with out banks. Yo must have banks of some

Those gentlemen who are advocating the destruction of our national banks. in their argument result: That right behind the destruction of the National Banks arise up tesuit: the ghosts of the old State banks, gory and bloody with the demand made on the pub he for its redemption—destroying of the irredeemable bills. Why, the old State banking system when we were doing business on a basis far less than at present, ander the old State banking system which existed in this country, inflicted a loss on the great population of the United States greater in amount than in the taxes which the Greenbacker now says is levied upon the people by the existence of National Banks. I will meet him right there and admit all he says, for the sake of argument against the National Banks, and I will tell him the old State banks imposed a heavier loss every year on the people of this country than is alleged of the National Banks H. R. STEVENS, Boston, Mass. inflicting to-day.

The bankers and National Banks PAY LARGER TAXES

than any other class of property in the United States. I want to repeat that there is no clars of property in this country that pays so large a tax as the National Banks. They have \$320,000,000, or, to be precise and correct, \$322,000,000. They last year paid \$9,200,000 to the States and counties where they were located, and they paid \$7,300,000 to the National Government; that makes sixteen and one half million dollars which the National Banks paid in taxes. Now stick a pin there. Sixteen and one half millions. Now we will sup-

pose you break them down, call in the eir-culation, and issue three hundred and wenty-two millions of greenbacks and take up that amount of government and the only kind of bonds you can buy at par, and I will admit tor the sake of the argument you could buy those, would be the four per cents. All the rest you would have to pay a premium for so the best you would do rould be to the four per cents. for, so the best you could do would be to destroy that amount of 4 per cents. Well, supposing this was done. What is the interest on \$322,000,000 United States 4 per cents? It is \$12,880,000, and you would have stopped that amount of interest. You would have stopped then, that amount of interest on the bonds, and you are getting \$16,500,000 of taxes from the National banks. Can you figure out where the great gain is there? It seems to me at is away up between \$3,000,000 and \$4,000,000—as the boys would call it—over the left, and

oppression of the National debt. Down in Maine—I do not know whether out here it is so-the Greenback orators try to persuade our people (and we have a considerable number of them) that all of their taxes would like to ask any gentleman here what it is in the national debt or in the taxes raised to pay its interest that distresses him. I do not ask the question oratorically; I ask it for an answer. If there is any gentleman in this vast throng that can tell me, I would like him to tell it now. What part of the tax laws of the United States Government, levied and assessed to maintain the public credit, to pay the interest on the public debt, and to gradually discharge its

plan if it were to be carried out.

Now I want the gentleman who says the whisky tax oppresses him, to stand up and let us look at him. I have waited for him to arise. We have raised a large sum out whisky cheap? We have raised a good deal out of tobacco and cigars, but do you think it would be best to THROW AWAY OUR NATIONAL HONOR

and our good name to the world for the sake of having a little cheaper medicinecheaper c'gars ? lask again, what single tax on any article that goes into the necessities of life, in your homes and houses, and your farms, and your domestic economy-what single

one is there that oppresses you?

Why, is it not like good, strong American sense. like that which becomes a great commercial city, to agree to do business on the basis of the money of the world. The European and the great commercial centers of the world call to us not to be taken up with the idea that we are going to get something for nothing, like children riding on a broom-stick, believing they are riding horses. It is for you, representing the commerce of the great Mississippi Valley -it is for you, standing as a central point of trade for several of the commodities of the world; it is for you to follow not folward, developing your destinies and those of the American people.

Last Monday night a grain thief entered the granary of Henry Cheney, in the town of La Prairie, about two miles south of this city, and helped himself, without leave or license, to ten bags of barley. He was tracked to Beloit and there arrested yesterday. He had sold the barley, but was kind enough to turn over to Mr. Cheney the money which he received for it so as to make good the latter's loss. The thief, who appears to be a stranger in these parts, was brought before Justice Rogers, in Belost, and let off with sixty days in jail, ten to be spent in solitary confinement and the balance in hard work. Dr. Lacy formerly lived in Orfordville and of late years has resided at Neilsville, where he died. It was his request that he should be buried in the cemetery here, and in accordance with that wish was brought hither under the escort of Knight Templars, he having been a prominent and active member of that order. The services at the grave were very impressive, they being conducted as is customary with the Knights.

### PLENTY OF CHANGE. A Peep into the Methodistic Kalel-

The changes among the Methodist churches, announced in last evening's Gazette, are of course a meaty topic of talk among the churchly folk. For a week or head, for interfering with Constable Case, more past there has been a general guessing bee as to who would occupy the Janes--Don't fail to hear C. Dale Armstrong ville pulpits next year. but the riddle seemed clad in darkness until the Bishop and his cabinet solved it by giving a pub. lic announcement of the decisions.

Rev. L. N. Wheeler, who has been the pastor of Court Street church for a year past, has been honored by being made Presiding Elder of Fond du Lac district, one of the most important and influential positions in the Conference. [The honor is well merited. Mr. Wheeler is a thorough christian gentleman, of high culture, and sweet spirit, and worthy in all respects Lof the great confidence placed in him. The Fond du Lac district has drawn a big prize. He and his tamily have won the respect and affection of the better part of their people here, and to their best wishes will be added many from those joutside of the pale of that church.

Rev. Henry Faville, of Delavan, who the chosen successor of Mr. Wheeler, is a young man of much promise. He is graduate of Lawrence University, Appletop, and the Boston Theological Seminary. For the past two years he has labored with great success at Delavan, land the people turn for another year, but the authorities over him have deemed it advisable to place him here. He and his family will be welcomed here, where they have already many warm friends. He will commence his labors next Sunday.

At the First Methodist church there has also been a change, Rev. Thomas Chthero having served there acceptably for three years, had to move as a Methodistic necessity. He has been appointed to Geneva The church there will find in him an est, quiet worker, who meddles with no one's business but his own, but meddles with that with persistency and success. The vacancy will be filled by Rev. H. Sewell, who has been preaching at Asbury church, Milwaukee, for the past two years Mr. Sewell is a typical Methodist, full of fire and vim, a great revivalist, and a man whose task always commands attention He will meet with a hearty reception, and the church will doubtless cooperate with him earnestly.

Rev. W. P. Stowe still remains as Presiding Elder of this district, and will contique to reside here. His work has been successfully carried on, and his record is a

Lewis Randolph, Janesville City.

TO WHOM IT MAY CONCERN. In attempting to make a statement in the stockholders' meeting, respecting the visited him in the rink paying two shillings appropriation of money subscribed by the people of this city; and not being allowed Cherry." to finish my statement, and having stated that sixteen hundred dollars went into Mr. Miner's hands, as Treasurer of the Rock standing coughs. I know of two patients, now County Society, which had never been in comfortable health, and who but for its use I publicly accounted for; and not being allowed to explain further, the impression upon Mr. Miner's mind, and, perhaps, upon other minds also, is that I intended to impune the honesty of Mr. Miner. God forbid, that I should mean any such thing. I believe Mr. Miner to be a careful, pruden, and strictly honest man; a perfectly proper man to be the Treasurer of any institution. This is my apology to Mr. Miner for any impression my statement might seem to imply. Since making the statement, I have seen Mr. Miner's books, and I am perfectly satisfied that he has accounted for every dollar that came into his hands from that subscription; and I am also satisfied that all excepting about ninety dollars, has been expended upon the fair grounds, preparing for the State Fair

last quarterly meeting. C. LOPTUS MARTIN. Janesville, October 9, 1878.

## OITY NOTIONS

It Costs Less to use Sozodont than any other beautifier. A few drops only are needed, and when regularly applied to the teeth is not only beautifying, but healthful. Much other adorning is dangerous, but this is never. In the sick room or in the toilet, it is equally welcome.

By using Spalding's Glue on the first appearance of a defect in the furniture, it will prove itself to be the most economical thing about the house.
